

RT = Cooler  
 RTD = Freezer

Key Features:

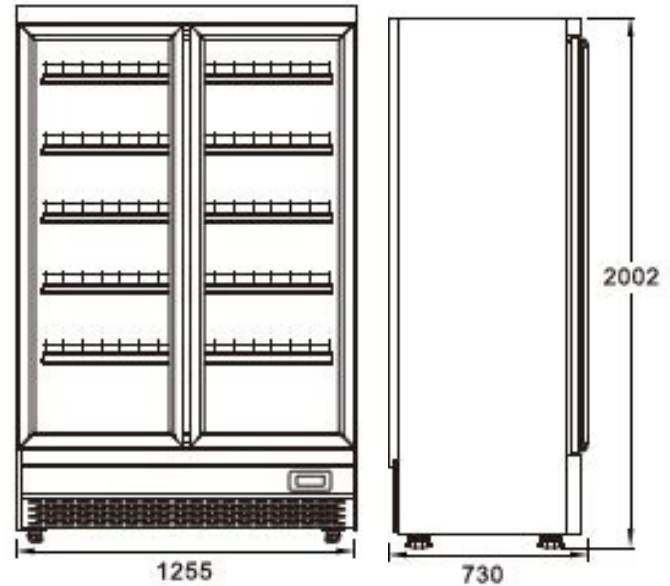

RT985-1/RTD985-1

- Frost-free air-cooled refrigeration system, no need for manual defrosting
- Cyclopentane foam box, more environmentally friendly and insulated
- Adjustable, encrypted load-bearing layer frame for neater placement of items
- Independent internal circulation air duct design, more uniform temperature inside the box
- Divided with shelves, beverages are neatly arranged and will not collapse
- Two layers of insulated glass, providing thermal insulation and preventing hot air from entering
- Automatic evaporation system for condensating water, no need to manually pour water

Dimensions (WxDxH)	1255*730*2002	1255*730*2002
Package size	1290*775*2155	1290*775*2155
Input power	660(W)	1400(W)
Display area	1.94(m <sup>2</sup> )	1.94(m <sup>2</sup> )
net capacity	840 (L)	750 (L)
Climate Type	4 (30°C, 55%)	4 (30°C, 55%)
temperature range	M2(0-1°C~7°C)	-22°C~-18°C
refrigerant	R290	R290
Rated current	3.8 (A)	6.7 (A)
Net weight/Gross weight	183/213 (kg)	183/213 (kg)

- Frost-free air-cooled refrigeration system, no need for manual defrosting
- Cyclopentane foam box, more environmentally friendly & insulated
- Adjustable encrypted load-bearing layer frame for neater placement of items
- Independent internal circulation air duct design, more uniform temperature inside the box
- Three-layer insulated glass, outer layer of electrically heated coated glass surface, no condensation water, clearer display
- Power off design for opening and closing doors, with the fan for opening the door stopping and the fan for closing the door starting, to minimize the loss of air conditioning & saving energy consumption
- Automatic rebound glass door, better protecting the cold air inside the cabinet & automatically closing the door in a timely manner
- Design of grid air duct on the back of the box; Make the temperature inside the box more balanced & avoid freezing
- Automatic condensate evaporation system, no need to pour water manually
